All Hands on Deck

PROJECT NUMBER:
2022-1-ES01-KA220-VET-000087373

Intermediterranean online workshop

Held by CETEM , 28/09/2023

All Hands on Deck

The project

- Erasmus + KA220-VET - Cooperation partnerships in vocational education and training
- 5 partners, 4 countries, 6 maritime areas
- Addressing digital transformation, contributing to innovation in shipwright, adapting it to labour market needs

All Hands on Deck

The partners

- CETEM
- Universidad de Murcia
- CEIPES
- Innovation in Learning Institute, Friedrich-Alexander-University Erlangen-Nuremberg
- InnovaWood

All Hands on Deck

The objectives

- Develop and implement innovative practices in VET learning of traditional sectors, in particular one of the oldest job positions in Europe: shipwright

All Hands on Deck

The objectives

- Rejuvenating the shipwright workforce attracting young learners training them with practical clues which are usually learned in workshops, this will be done with immersive learning using new appealing technologies (as videos 360 with real shipwrights)

All Hands on Deck

The objectives

- Increase the number of students in VET woodworking and boat carpentry – even transferring professionals from related sectors

All Hands on Deck

The objectives

- Enhance European connections and facilitate cooperation between professionals and learners of different maritime areas, with the objective to spread knowledge and increasing common projects and possibility for learners to move around Europe

All Hands on Deck

The objectives

- Preserve practical knowledge and know-how of European shipwrights - record and digitalise interventions of current shipwrights of different maritime areas

All Hands on Deck

The objectives

- Facilitate access to information irrespective of the learner's location or financial resources

Collaborative portal

All Hands on Deck

- Creation and release a portal 2.0 as a collaborative tool where learners and shipwright professionals could have contact and could share their different ideas, projects, doubts with other learners and professionals around Europe.

3 MAIN NODES:

- Shipwright-learners
- Shipwright-shipyards
- Shipwright-shipwright

All Hands on Deck

Collaborative portal

In each node:

- A general forum
- Specific forums of important topics
- A question and answers area
- A sharing collaborative space
- A notice board with learning or professional opportunities
- Possibility of sending and receiving messages

Welcome to the shipwright collaborative portal that allows professionals and students across Europe to connect, ask questions and share knowledge.

Below you can find more information for each collaborative group, where you can sign up to start connecting with students, shipwrights and shipyards.

Shipwright-Shipwright

This group is focused on facilitating cooperation between shipwright professionals of different maritime areas and countries, in order to give the opportunity to share ideas, documents, projects, knowledge... to preserve this job position. It is possible to participate in the different forums about interesting topics, even create new ones to receive inputs from other shipwrights; use a sharing space to upload documents, projects, images, videos, designs sketches that the user wants to share with the rest of the shipwrights of this group; you can contact directly with other shipwrights to ask questions or answer doubts; and check and add news on the notice board with professional and learning opportunities.

Shipwrights-Shipyard

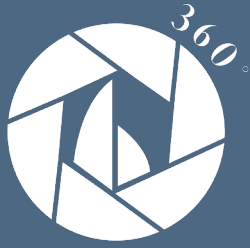

This group is done with the objective of facilitating the relation between shipwrights and shipyards in order to share possible projects, work offers or exchange of students. In this group is possible to participate in the different forums about interesting topics, even create new ones to receive inputs from other members; use a sharing space to upload documents, projects, images, videos, designs sketches that the user wants to share with the rest of the users of this group; if you are representing a shipyard you can contact directly with shipwrights to ask questions or propose collaborations or potential projects together, also if you are a shipwright can do the same in case of shipyards; and check and add news on the notice board with professional and learning opportunities.

Shipwrights-Students

This group is focused on learning about shipwright and is made with the objective to be used to share contents and establish contact between current shipwrights and people who are learning in this matter. It is possible to participate in the different forums about interesting topics, even create new ones to receive inputs from other members; use a sharing space to upload documents, projects, images, videos, designs sketches that the user wants to share with the rest of the users of this group; if you are a learner you can contact directly with other members to ask questions or answer doubts; and check and add news on the notice board with professional and learning opportunities.

Multilingual Terminology Database Platform

- Users will be able to search for the word or looking in thematic areas or maritime areas because the platform will list the word entries alphabetically and it will be included in thematic and maritime areas. A learner will be able to select a desired language first and search a word directly or in an area and it will appear the translation to the other 4 languages, the description in the chosen language, a suitable image, a voice note, synonyms and thematic and maritime area where is used.
- WE NEED PROFESSIONALS TO GIVE COMMENTS ABOUT THE 1000 TERMS

360° Virtual Tours of shipyards from different maritime areas

- Development of a total of 5 360° panoramic tours of real shipyards from 5 different maritime locations. The virtual interior and exterior of the shipyards contain numerous hotspots as access to the learning materials. The main component consists of immersive videos in which boat builders convey their knowledge and know-how orally, as well as numerous other learning elements of different element types (photos, audios, links).
- Development of interactive test questions of different question types with detailed feedback for learners to self-assess the level of knowledge acquired following the virtual tour of each shipyard.
- WE NEED PROFESSIONALS TO VISIT TO RECORD HOW THEY ARE WORKING AND EXPLAIN THEIR JOB
