All Hands on Deck

The maritime areas

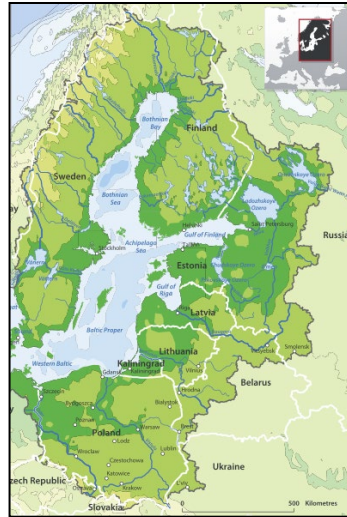

Atlantic Arc

Balkans & Black Sea

Baltic Sea

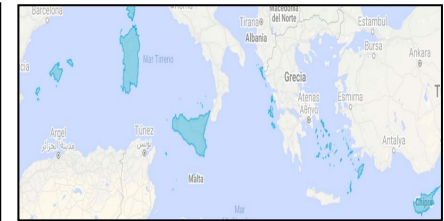

North Sea

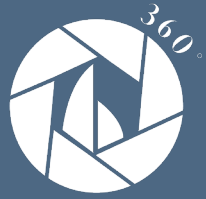

Inter-mediterranean

Islands

- Canarian Islands
- Balearic Islands
- Corsica
- Sardinia
- Sicily
- Greek Islands including Crete
- Cyprus
- Malta

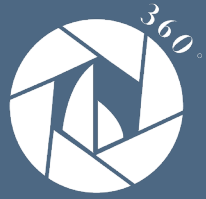

All Hands on Deck

The objectives

1. Developing and implementing innovative practices in boatbuilding
2. Rejuvenating the boatbuilding workforce through innovative learning systems
3. Increasing the number of students in boatbuilding
4. Improving European connections within the craft
5. Preserving knowledge and know-how
6. Facilitating access to information

All Hands on Deck

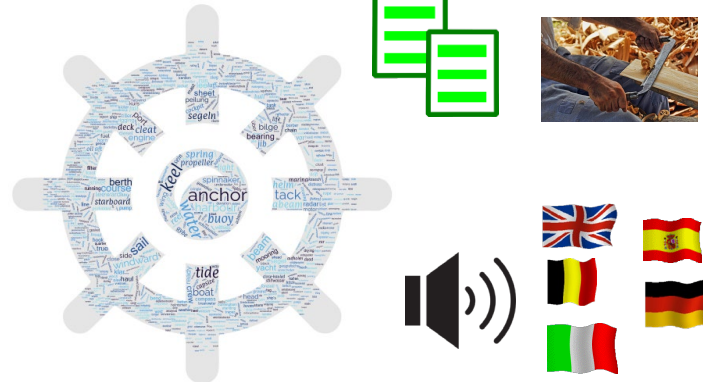

1

A shipwright collaborative portal enabling professionals and learners across Europe to connect, ask questions and share knowledge.

2

An European audio-visual terminology database featuring 1000+ shipwright terms with descriptions, pictures, voice notes and translation in five languages (EN, SP, DE, IT, FR), improving communication and understanding in shipbuilding industry.

3

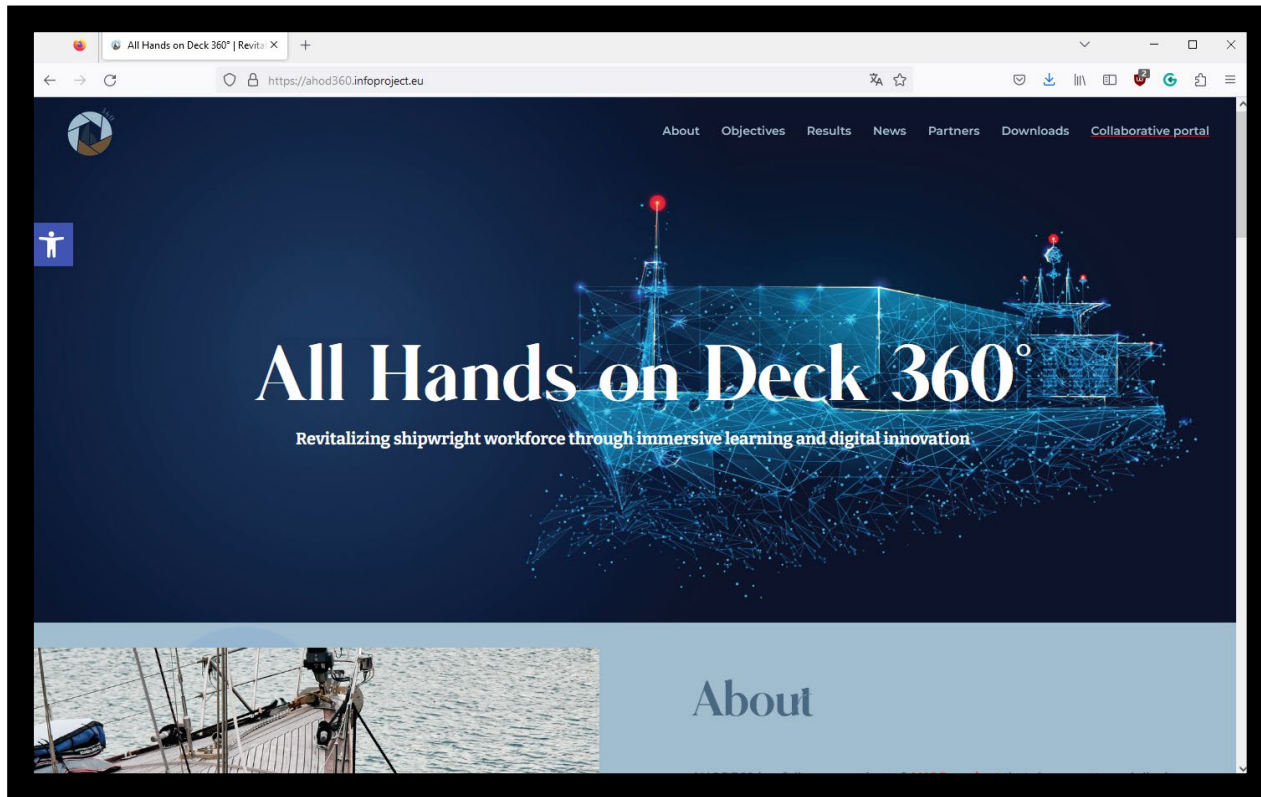

An immersive learning environment with 5 virtual 360° tours of shipyards from different maritime areas that explain different concepts, creating an interactive and engaging learning experience.

All Hands on Deck

Login and Home

Welcome to the shipwright collaborative portal that allows professionals and students across Europe to connect, ask questions and share knowledge.

Below you can find more information for each collaborative group, where you can sign up to start connecting with students, shipwrights and shipyards.

Shipwright-Shipwright

This group is focused on facilitating cooperation between shipwright professionals of different maritime areas and countries, in order to give the opportunity to share ideas, documents, projects, knowledge... to preserve this job position. It is possible to participate in the different forums about interesting topics, even create new ones to receive inputs from other shipwrights; use a sharing space to upload documents, projects, images, videos, designs sketches that the user wants to share with the rest of the shipwrights of this group, you can contact directly with other shipwrights to ask questions or answer doubts, and check and add news on the notice board with professional and learning opportunities.

Shipwrights-Shipyard

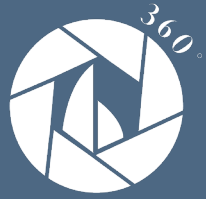

This group is done with the objective of facilitating the relation between shipwrights and shipyards in order to share possible projects, work offers or exchange of students. In this group is possible to participate in the different forums about interesting topics, even create new ones to receive inputs from other members; use a sharing space to upload documents, projects, images, videos, designs sketches that the user wants to share with the rest of the users of this group, if you are representing a shipyard you can contact directly with shipwrights to ask questions or propose collaborations or potential projects together, also if you are a shipwright can do the same in case of shipyards; and check and add news on the notice board with professional and learning opportunities.

Shipwrights-Students

This group is focused on learning about shipwright and is made with the objective to be used to share contents and establish contact between current shipwrights and people who are learning in this matter. It is possible to participate in the different forums about interesting topics, even create new ones to receive inputs from other members; use a sharing space to upload documents, projects, images, videos, designs sketches that the user wants to share with the rest of the users of this group; if you are a learner you can contact directly with other members to ask questions or answer doubts, and check and add news on the notice board with professional and learning opportunities.

An interesting event for Boatbuilding Enthusiasts!

The Webinar that introduces bio-lightweight material for stand-up paddleboards and other applications.
The material boasts unmatched mechanical strength, resistance to the elements, and is a sustainable solution for the boatbuilding industry.

This free online event is hosted by the Fraunhofer Institute for Wood Research, Wilhelm-Klauditz-Institut WKI on September 19, 2023 and is in German.

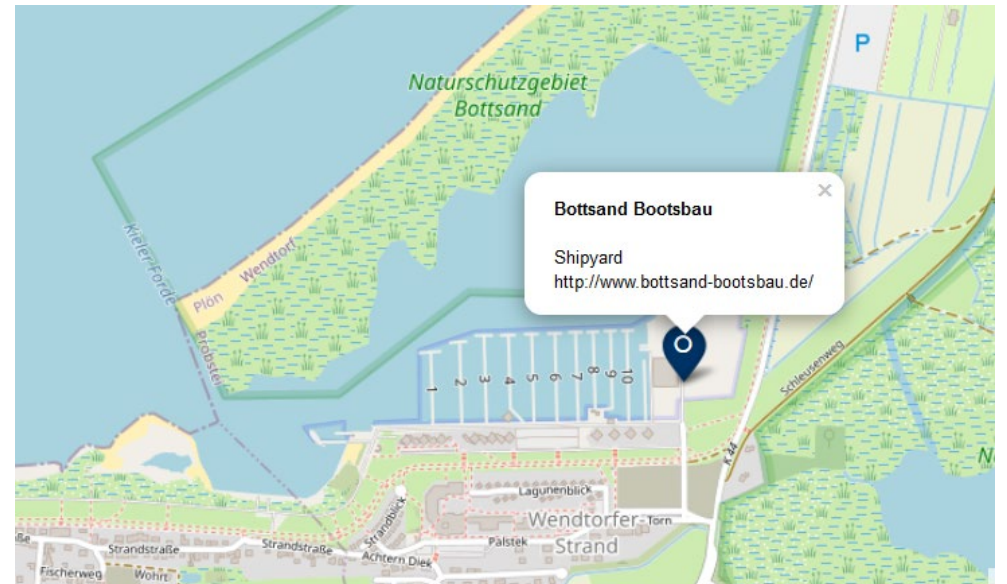

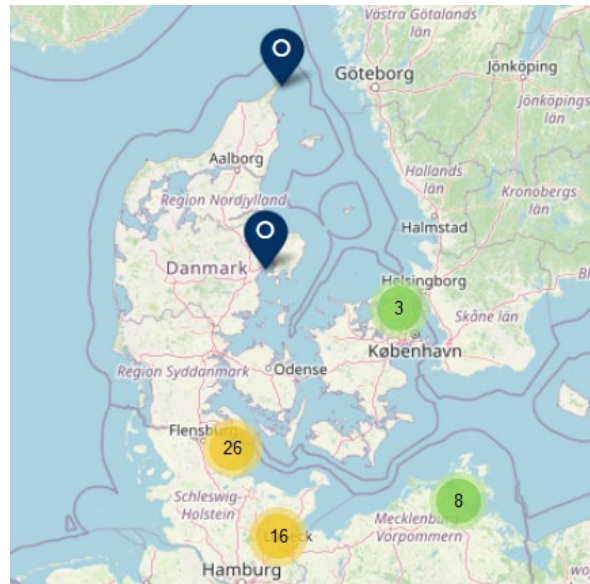

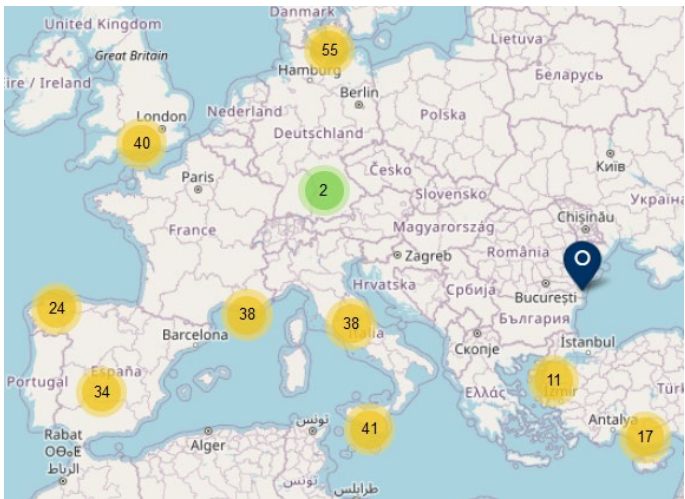

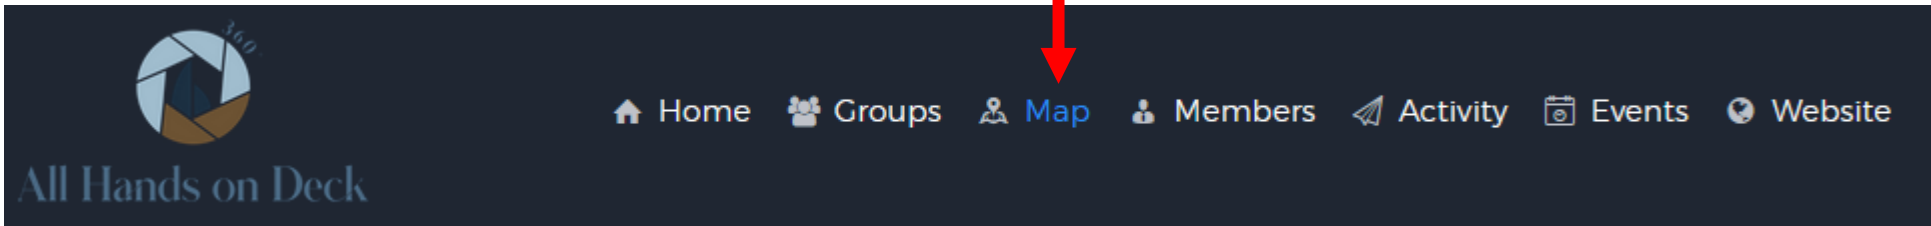

Information and registration here: https://www.wki.fraunhofer.de/en/events/online-seminars/2023/webinar_78.html

Map

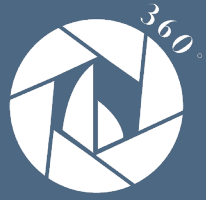

All Hands on Deck

Events

The screenshot shows the 'All Hands on Deck' mobile application interface. At the top, there is a navigation bar with icons for Home, Groups, Map, and Members. The main header reads 'All Hands on Deck'. Below this, the section is titled 'Events for Sep 2023'. A search bar is present with the placeholder text 'Search for events'. The calendar view is set to 'THIS MONTH' and 'Sep 2023'. The calendar grid shows dates from the 28th to the 10th. A modal window is open for an event on September 29th, titled 'Workshop'. The event details include the time 'Sep 29, 9:00 am - 9:45 am', the Zoom link 'https://fau.zoom-x.de/j/61713331865?pwd=Y3hETmtvL3d2VUJWenFWb1lYQXkwUT09', the Session ID '617 1333 1865', and the Passcode '3185...'. The background of the app features a blue and white network graphic.

Certificate of attendance

CERTIFICATE OF ATTENDANCE

All Hands on Deck

This is to certify that
participant's name

attended the All Hands On Deck 360° Project Introduction Workshop,
which took place online on 29 September 2023 from 9:00 to 10:00 am.

During this workshop, participants had the opportunity to

- Gain an insight into the All Hands On Deck 360° project and its objectives.
- Explore the functionality of the new European Boatbuilding Portal.
- Participate in discussions, ask questions and actively contribute to the discourse.

The workshop was held in English.
